

Annual Spring Seminar

Wednesday May 15th, 2024

Free for Members!

We Have Applied for

Massachusetts

4 Wastewater Treatment Contact Hours (TCHs)

for this Seminar

Presentation Topics:

**ANNUAL RCRA
HAZARDOUS WASTE
HANDLING &
SAFETY TRAINING**

REGULATORY AND

LEGISLATIVE UPDATE / ENVIRONMENTAL JUSTICE AND PUBLIC ENGAGEMENT

RCRA HAZARDOUS WASTE HANDLING & SAFETY TRAINING SEMINAR

David S. Webster, CSP of HRP Associates

David Webster will present a comprehensive RCRA seminar designed to provide both entry-level and experienced environmental managers with a thorough review of state and federal hazardous materials and hazardous waste regulations. The two-hour segment is designed to assist industry in meeting their annual RCRA training requirements. Regulatory examples and case histories will be used during this seminar to emphasize and reinforce aspects of the hazardous waste regulations. As required by statute, a written exam will be given at the conclusion of the presentation to ascertain the attendees complete understanding of the course materials and requirements.

REGULATORY AND LEGISLATIVE UPDATE / ENVIRONMENTAL JUSTICE AND PUBLIC ENGAGEMENT

Katherine Robertson Executive Director from MCTA (Massachusetts Chemistry & Technology Alliance)

Environmental Justice and Public Engagement: Critical Drivers for Coming Years

Environmental Justice: Highlighting Opportunities for Industry.

Environmental justice is a major priority for both the Healey and Biden Administrations. Massachusetts has taken a leadership role on addressing these issues and has incorporated the impact of programs, policies and development on overburdened communities into its laws and regulations. From air and wastewater permitting to PFAS use, EJ considerations will have an increasing role in how you run your operations and what your responsibility will be to work with your neighbors.

This session will include a presentation of public engagement best practices, state and federal laws, policies, regulations and funding aimed at facilitating partnerships with your communities.

Massachusetts Legislative and Regulatory Update: Looking Back & Moving Forward

The Massachusetts Chemistry & Technology Alliance takes a look back at what has happened during the 2023-2024 legislative session and what we can expect before it adjourns this summer.

This session will also provide an update on new regulations, programs, policies and laws that could impact your operations.

**LUNCH / REGISTRATION FROM 12:00pm to 1:00pm
SEMINAR FROM 1:00pm to 5:00pm**

**COURTYARD BY MARRIOTT
BOSTON MARLBOROUGH
75 Felton Street
Marlborough, MA. 01752**

Cost:

Members: FREE PER PERSON

Non-Member: \$200 per person
